Siberian Visit

Further to our recent editorial on Siberia it is interesting to note that the Minister of Northern Development, Jean Chretien, is planning a ten-day visit to the region this

spring.

Considering the vastness of Siberia — it extends across five time zonts — Mr. Chreiten's visit will be something of a mini effort. Still, he hopes to learn how the Russians are developing huge mineral finds and also make a study of their feebreaking methods and conservation plans.

Lace.
The story gained new momentum after three American newspaper men left a U.S. guided tour of an innoncous area and went to the long-acret base of Long Cheng, from which they reported American made planes were taking off at the rate of one a minute. The assumption reported American-made planes were taking off at the rate of one a minute. The assumption was that the aircraft were to support the Royal Lao govern-ment in its light against the North Vistnamese and the Com-munical Pattlet Lao Insurgeota.

Growing Up

Young people are forerer saying there is nothing to do, or that the community has nothing to dier. We suppose it has ever been thus—yet in reality the premise is so full of holes as to be completely untenshie. Anyone who tackles life positively, who in the words of Lord Chandos, finds practically everything and things to assume that the community of the communi

But there it is, instead of sport, adventure, a desire say to travel and observe the best of what the world has to offer, maybe even work toward improving it (but not in the fashion of Santa Barbara in the last few days), we have a host of kids sitting around with "nothing to do."

The City of Brochville for one is going through this phase, as local newspaper interies with students indicates. "Brochville is a bore," anys one youth. Since a youth club as bore," anys one youth. Since a youth club return the students of the students o

It seems then that sport for most is out.

As Mr. Pyper pointed out, young people, school authorities and the churches are not interested. Instead, he recommended non-athletic programs and spoke of youth workers to talk with the kids in clubs and restaurants. * * *

This of course is the gloomy side of the coin, and lest we appear to be among that section of the Press which in music adjudicator Rankern Bushby's view constantly publishes the bad news of the 'two per cent of young people and Ignores the 98 per cent of good Chings,' then we must draw stiention once things, then we must draw stiention once the contract of the con

We might also mention again the gettogether of the young people of the prefominantly Negro school in Washington, D.C. and

attention, including coverage by the CBC on
its late-night news program).

RUN DOWN

Ben Berke is hereand unpopular already-

(when you sell a great made-to-measure suit for \$69, you can't expect the other tailors to love you.)

When Ben Berke opens a new store, it's rough on the competition. Just look at what they're up against.

We offer you the choice of hundreds of good materials, many of them imported. You choose the style you like, with any little personal touches you fancy. And you get the Ben Berke guarantee — You have to be perfectly happy with your suit, or you don't pay a cents.

All this for \$69. Ben Berke's only price.

Come in and see the biggest value in town. We're sorry to make the competition mad. But, at least, we're pleasing the customers.

Fun for Youngsters

The story in this newspaper last week about the Ameliasburg Swingers was surely one of the most heartening in the checkered reakes of modern youth.

Nothing to do? Certainly this does not apply to the 200 or so township youngstens in the Grades 4 to 8 range who get logether twice a month foor dancing at Ameliasburg town.

\$1,000 for the Red Cross. 1,000 for Miss J. Gaudreau.

Miss Gaudreau donates \$1,000 to the Canadian Red Cross. She is shown here at a blood donor's centre.

It's a new idea from Mark Ten. Twin Cash Certificates in Mark Ten packs are worth \$1,000 to you and \$1,000 for any

worthwhile cause you choose.

Joceline Gaudreau, a recent winner, chose the Canadian Red Cross. She had been impressed with the generous way the Red Cross had helped a needy neighbour and is delighted to make her \$1,000 donation to this fine organization.

Miss Gaudreau plans to use her own \$1,000 for a skiing trip to Europe next year. And, she is saving the free gift coupons on Mark Ten packs for her father who redeems them for equipment for his favourite sport — fishing. ... If you find a Twin Cash Certificate in

Mark Ten, you'll be helping others as well as yourself.

Announcing the paint happening of the year!

Mastercraft ... the 'you-don't-have-to-pay-for-the-label' paint!

Big name paints cost big money. Sure they're the highest quality, best on the market. And they've got a four figure price to prove it! At Canadian Tire, we think it's what's in, not on the can that counts.

As a matter of fact, Mastercraft is made by one of these big names. His aniate to late, mastercata its masse by one of ones on nones on quality but our label, our price and your savings. Yes, the same big name paint, only the label has been changed to protect the pocketbook. And after all, who paints with the name? Now 'top-of-the-line' Mastercraft... the 'you don'thave to-pay-for-the-label' paint.

A Canadian Tire Home Product INTERIOR-EXTERIOR GLOSS ENAMEL QUART 2,65 There's a new Mastercraft paint for every painting need!

George St. George in his remarkable book Siberia: The New Frontier gives a masterly analysis of the so-called generation gap.

The author describes the work of the young Soviet geologists who wander all over the Siberian "slags" witherness looking for minerals, facing great hardships in the process, including the awecome mental pressures that come from contact with such forbidding

St. George says II has been cynically suggested that this kind of patriotic fervor is based on a desire to escape the boredom and regimentation of socialist society.

regimentation of socialist society.

This may be partly true, he says, and then continues: "Youth, any youth, is always in emotional rebellion against any routine, any rigidity, against everything in fact that might be imposed on it by older generations; this is a matter of bloogy, I believe, more than of sociology of bloogy, I believe, more than of sociology

er of any polities.

"The young all over the world want to do thate own living, their own linking, to the their own linking, their own linking, their own mattakes they are impatient for take over from the older generation, ower being aided. The population exploited more, hand, and increasing longerity on the one, hand, and increasing longerity on the one, hand, and no made the conflict and fitth syoung driven starpers the conflict and in the syoung have an encommous amount fortune their systems and no way of expending it, with the older people clogging all the avenues of life."

Perhaps there is some exageneration here.

people cogging at the avenues of life."

Frings there is some cargagardion here, for it is not-is fact that young people are in fact typing—and to some action succeding the state of the state of the second people are in many fact the carety, but with it must go a sense of responsibility. The older generation for its part cannot just be written of its a group that is simply a bindranes to impetuous youth.

St. George's book, nonetheless is an extra-ordinary document about an extraordinary region peopled by an extraordinary race. It is a book for young and old.

Announcing Jack Fraser's 44th annual

Spring Sale

of beautiful made-to-measure suits

Sale price 303 \$170 for two Regular values to \$130

It's the yeth season. Suit his is slow at this time of year. Winter is on the wane, but the Spring surge heart's yet started. To stir up sittle action, we're now holding one of our two fantastic annual made-to-measure sales. For ten days only you can save a hundle on a beautiful, top quality made-to-measure suit. (Note: when we say ten days, we mean ten days. When the sale's over, whamil Prices go back to normal).

Hyou're sever known the joy of coming a sait that's all you, we ure you to sains this opportunity. There's more to made-to-measure than aimply. There's more to made-to-measure than aimply and the seasethy to your build. You choose the eract fairing you want. You specify the styling. You name the little convenience features you've always liked.

And nobody, but nobody says "Scarry, we don't seem to have that model in your size".

Save a bundle on a suit that's all you! Come to our great made-to-measure sale. But hurry. Ten days passes fast.

Belleville - 258 Front St. Trenton - Dungas St. west

The six parts of a great Jack Fraser suit value

- Fabric. Choose your pure wool fabric from hundreds of shades and patterns, including plenty of rich plains, pic n pics, window panes and, of course, lots of great zingy stripes. And you don't have to make your choice from tiny swatches. Most fabrics are in bolzs, so you can get an excellent idea how your suit will loop.
- 2. Style. Your new suit can be as wild or as conservative as you want. You can have the jacket skirt fisred a little or a lot. You can have the trousers tapered, straight or flared. If you're not sure what's best for you, our expert will be pleased to advise.
- 3. Features. Here's your chance to have the little features exactly as you prefer them—pockets straight or alsahed, flapped or unfapped, centre or side vent, lapels a little wider or a little narrower. You're the boss.
- 4. Measurement. Your made-to-measure suit is as good as the man who measures you. And we've got the best in the business. Our preprentative doesn't use just the tape measure. He uses his well-trained eye to pick out the little oddities of build that every human being has. The small things that can spoil the hang of a suit if not taken
- 5. Hand work. Machines are great for some things. But there's no substitute for the skilled hand of the tailor in the making of a great-suit. Your made-to-measure suit is hand cut. hand basted, hand sewn around the collar, undercollar and shoulder lining, and hand pressed for final shaping.
- 6. Guarantee. You must be satisfied! No made-to-measure suit leaves the store until the buyer is completely satisfied

Hurry! Sale lasts 10 days only

DATSUN 1600 PICKUP works harder for half the cost!

VADER'S GARAGE DATSUN SALES & SERVICE

And here he goes againthis time in Bellevi

First of all, Ben Berke decided to price his made-to-measure suits at just \$69. (He'll go broke, the other tailors said.)

Second, he said he'd have one price only for any of hundreds of good fabrics, tailored in any style you like. (It just won't work, they said.)

Third, he drew a line at arm-twisting. No high-pressure salesmanship, ever. (He'li learn, they said.)

Fourth, a customer had to be happy with his suit, or Ben Berke would make him another one. (He must be crazy, they said.)

Nobody liked Ben Berke's ideas, except the customers. They keep coming back for more. In their thousands.

Now you have a Ben Berke store. Same deal. We break the rules, you get the break! Come in and look us over and you'll see!

Winter Has Had Its Fling

IT LOOKS like a min iature lake, but it's actually a sign that winter's over. Truck bucks pond on Mary Street after warm weather, melting snows and clogged - drains combined to cause smallscale flooding on city streets.

Money In The Bag

Area staff representatives for the Ontario Association for the Mentally Retarded, O.P.P. Cpl. W. MacGregor and Richard Tutt share the wealth with Mrs. John Shannon, president of the Prince Edward Association and Const. W. Kelleher, chair-

man of the fund raising program. The proceeds, in the form of the \$1,125 cheque, raised by a charity hockey game in Picton between the O.P.P. and the CKWS No Slars, will go towards an adult work-shop for the county's mentally retarded.

Critical Path Seminar Planned

PUBLIC WORKS employee Ernest Asselstine, up to his knees in a ing street flood, uses magnet to seek out city drain opening. Scene — at West Dundas and Mary streets — is kingsize replics of situation in other parts of Belle-ville as winter ice clogs drains against melting snow runoff.

CITY WORKS em ployee Howard Storms pours salt into pond on Dundas West yesterday

after clogged drain was finally located. Chemical reaction was needed to free catch basin of ice

after it resisted crowbar wielded by Ernest Asselstine. Plugged basins caused heavy street

flooding in area.

In Connemara

If you want to get away from it all, the dramatic terrain of Connemara in Ireland's west is hard to beat. Better still if you are a fisherman the region offers some of the world's best, in lakes amid the silent mountains made famous by artist Paul Henry.

And here, on the County Galway coast, is the town

of Clifden. Half-a-century ago, in 1919, Alcock and Brown made a rough landing in a bog near this community; they had taken off from 8t. John's Newfoundland, 16 hours and 27 minutes earlier on the first market Silvable of the Atlantic the first non-stop flight of the Atlantic.

Key to Control

The Princess Royal Islands, two specks of nd in Prince of Wales Strait in the Northwest erritories, are the key to Canadian sowereign introl of the Northwest Passage, Ottawa sources y. The islands, in the middle of the eight-milesay. The islands, in the middle of the eigni-mus-wide strail, effectively block attempts to apply the three-mile territorial limit to the passage. It is the only point in the entire passage where Canada can assert a territorial claim over Arctic water. (CP Newsmap)

A good tire made even better for the 1970's

Nothing stands still those days. That's why we're reiting 'Old Faithful' in favor of a now and better Safety '99'. Wider. Flatter. Stronger. Heavier than its million or more professionate. Changes not just for the ake of change — but to meet the heavy We like to be a jump ahead. We have to figure what happens to time at speed you way not even most '07 to use, this faithers increase A army just a speed increase. A time tread driven at the old speed-limit of 60 m.p.h. will run almost twice as far as consour driven at 10. And at time capable of giving 25.00 mercine miles at 50 m.p.h. will survive only 6,000 at 80 m.p.h. A subering thought — back of our determination to make the safety, stronger, longer-stronger.

Justice Quebec-Style

Incredibly, the blame for the recent beating of Walter Redel, a British Columbia civil seavant, by Qeiebec City plainclothes police who mistock him for a bank robber is being placed on Mr. Redel. By Quebec Justice Minister Remi Paul that is.

straister Remi Paul that is.

In sleiter to Leuis Peterson, R.C. attormy-rement, Mr. Paul said: "Can I biame the police fifteers concerned for what they did in the seat of action? They had good reason, to sellere Mr. Redel was one of the members of the grang and to fear the man they were noting might use violence. Indeed Mr. Redely resistance can explain the officer's immediate wearthy.

It's bright, it's caim — and it's cold as the Quinte district waits out the final phase of winter 1970. Soon this typical Believille-area rural scene will be drastically changed as spring warms the landscape. And spring isn't that far away — officially, By the calendar it's schouled to arrive March 20.

Rotary Anniversary

For Believille Rotary Citied It is perhaps fitting last its flot anniversary dimer, in the presence of Governor-General Rotand Mich-cess, this weekend, should come in the misst of its Easter Seal exampaign.

This settify on behalf of crippied children in Ontario has long been in the forefront of cith work, and it is documented in a history

of the club prepared by former president A. McLean (Mac) Haig.

Methods of fund-raising have ranged from a carnival during the winter of 1926-27, featuring the Toronto Skating Club, to Minstrel shows. Scene of these presentations was the old Griffin theatre on the corner of East Bridge and Church streets. A contemporary member of the club, Bill Finkle, a regular der of the song period at the club's weekly acheons, appeared then as a boy soprano.

The Minstrel shows faded out, but just before the last war a speedboat regatta was staged at Massassaga Point and attracted some top performers, including the well-known top perform Pops Cooper.

Another activity linked with Rotary about that time was the "Radio Four" composed of Harry Moorman, Al Sittliana, Dr. Haffner and Arnold Thompson, with Leo Higgs as accomp-anist. Three of the fire were club members and the group were popular radio performers for a number of years.

a number of years.

The second world war thinned membership ranks, but the club held together and the work on behalf of cripplied children ontinues. Sor some years now the club has sponsored the annual Science Fair and Hobby Fair and more recently the Music Festival.

This year's Easter Seals compaign inci-dentally has a target of \$8,400 and earlier this week it was reported that about \$1,000 had been received thus far.

bien recived thus fat.

The Rotary Club of Belleville (club president is Bob Lanning) has come a long way since like establishment in 1920. The circumstances are interesting; it was a 'time of uncertainty in the walks of the first world war and government borrowing at the time was not present to be considered by the control of the content with the business and professional men of the city Botary came into being here. Tone early days and accomplishments will be in members' thoughts on this important occasions.

Dr. Potter's Address

Quinte MPP Dr. Richard Potter makes a lot of sense with his renewed call for an im-mediate ban on detergent phosphates and with his views on medical services and "empire building" in the civil service.

"Surely, if we are convinced that phos-intes are responsible for a major percentage pollution, then we should take action now, ad not two years hence."

and not two years hence."

The Quinte MFF questioned the federal government's timing of its proposed ban and criticized the province for 'blindy' following Catawa's lead. He quoted predictions of a world that would be uninhabitable in less than 35 years unless drastic pollution control measures were implemented.

On melloul incurance.

measures were implemented.

On medical insurance Dr. Potter advo-cates a single Ontario health services plan instead of three requiring separate staffs and budgets as at present. On the proliferation of unincossary staff in government, Dr. Potter gald that recently applications had been advertised for a lawyer to head a sub-depart-ment of three lawyers who were to advise and

assist a depuly minister.

And this at a time when economy is supposed to be the watchword. One government lawyer, according to Dr. Fetter, had resigned because there was so little for him to do. Not ereryone would be prepared to do this, particularly if enjoying a big salary. But the responsibility is the governments in the first place, to periodically review staff requirements and coots, as it doubt in hodsaty, and to govern and coots, as it doubt in hodsaty, and to govern dst a deputy minister.

Ha needs accordingly.

As it is, the government is the higgest industry in the country, including the provinces— all the way down from ministers, deputies and assistants, to accrearies, supervisors and a verifable army of celerical staff. Duplication of effort in such a set-up is insertiable and the operation of Parkinson's Law (work expands to fill the time available for its completion) inscrabile.

President Roy Payne of the Belleville Minor Lacrosse Association offers we pre-season pointers to 11-year-old Jeff Belanger. The association held second meeting of the year Tuesday night, at Quinte Secondary School.

Belleville Kinxmen winger Mark Coates is seen in action against Barrie, last night, during the second game of their OMHA AA semi-linal series. Barrie scored with 34 seconds remaining in the 10-minute overtime period to take a 4-3 win and sweep the series in two games. The loss ended a two-year Belleville.

It's not enough to be concerned about the White Paper for "Increased Taxation."

Do Something.

In a short time, the Canadian Council for Fair Taxation will be presenting its brief to the Com-mons and Senate Committees,

If you care about your future, and the future of your country, we'd like you to join us. Because there is force in numbers. And the more people who back us, the greater our chance of coarine-

Two things we'd like to make clear. We are not a radical group. Neither are we politically motivated.

The Canadian Council for Faig Taxation is men and women who see in the White Paper a threat to the vitality and growth of our country.

It is not that we want things as they are. We agree with the principle of tax relief for the poor. But we do not agree with the principle of negating the efforts of progressive middle income groups to achieve this end.

Our proposal to the Government is to take the poor off the income tax rolls now before the next election. No political party should try to they there were

That the capital gains tax be at rates no higher than in the United States.

And that there he no capital gains tax on homes and personal items.

Canada's independent limited companies, and all of those who work for them, are in jeopardy. How can these companies and their employees develop themselves and our country's resources it bombaried by heavy income, estate and capital stats taxes.

We need your support. Ottawa is backing down, and we are winning. Write to your MP. And send us this membership coupon,

Canada is your future.

A Windy City

To look at this tranquil picture of a city in the sun it is difficult to conjure up the spectacle of the windswept capital it is on occasion. Or to realize that in the waters of the Cook Strati-outside the harbor some of the most savage storms experienced anywhere are bred, A year or two ago the modern

ferry Wahine sank after being battered by such a storm as it neared the end of its journey from the south taland, and just the other day the Royal yacht Britannia was slowed to four knots in a gale in the same area. And the city? Yes, it is Weillington, New Zealand, population (1987), 273,000.

Northern Ireland's new College of art and Design reflects an increasing demand for higher education in these spheres. The college is organized in seven main departments embracing foundation studies; painting and acciptum; textiles and fashion; ceramics; after and fewellery and intector design; printing; graphic design and photography; teacher training; and art, history and comple-

mentary studies. The original establishment was overed in 1849 when there was a strong awareness of the dependence of industry upon the arta. The linen industry in particular demanded a flow of trained designers. Here are seen two students in the lextile and fashion department, (Northern Irenda government information service)

Dishwashers need gallons of piping hot water. An Esso Water Heater delivers.

When it comes to delivering all the hot water you need, some water heaters just don't make it. And that's no mystery, they just cannot heat water fast enough! But an Esso Water Heater can. In just one hour an oil-fired Esso Water Heater delivers over 80 Imperial gallons of pinjing hot water. Enough for half a dozen dishwashers, aproned or automatic!

What an Esso Water Heater delivers in efficiency it equals in economy. All you pay is a nominal monthly rental that includes maintenance, plus

fuel. There's no charge for a standard installation if you already have an oil tank. And in most areas domestic heating oil is the most economical fuel you can buy. If you prefer you can purchase your Esso Water Heater outright.

Enjoy all the hot water you want with an Esso Water Heater. It won't mysteriously leave you cold.

Only \$299 a month rents an EssoWater Heater

Bus Station Once Milk Stand

Milk stands have long been a thing of the past in the Quinte area. But the one remaining on the Rednerville Road across from the Gert Vander-velde residence serves a good purpose as an all-

weather shelter for school children awaiting the bus. The Vandervelde's daughter, Diane, 12, finds that station a handy place to exchange conversa-tions with neighbors until the ride comes.

Well, a good part of it is going into what the economic equity ownership." In the layman's language, this means that the lenders would rather become owners — because heirs the greetest profit lies.

Insurance companies, for instance, have long been one a prime searces of merigage frads. But in the first sine ment. 1986, a number of the largest companies have more the shield their largestances in real estate.

With ownership, insurance companies can also count on capital appreciation of the limit and future increases in revenue from rents — both hedges against inflation.

What is "Aged" Beef?

Quite often you see certain terms used in describing meats. Perhaps not often enough are they fully explained in terms that make sense to an average food shopper.

that make sense to an average food shopper. So, we thought this would be a good subject for this week's informative series of meat advertisements, which a lot of people tell us they're reading.

In fact, several people suggested we deal with "aging", to clear up in their minds, what it means. We're delighted!

Spelling it out!

As far as beef, is concerned, the term aging simply means, the length of time the sides of beef are left to 'hang' between the dressing which takes place at the mear packing plant and the time the individual cuts are on sale at the store.

The aging time

There may be varied opinions on this point. But in our opinion, where natural *tenderness* is concerned, an aging period of not less than 12 to 14 days is mandatory.

Anything less than that may be less than you deserve.

Call it being finicky if you like. But it's the only way we know of being sure of natural tenderness, natural flavour and natural tasts.

It's nature's way!

And nothing or nobody can do it better than Mother Nature herself.

Many steps needed

Few products enjoy more attention than the meats we Canadians purchase week in week out.

There's constant supervision and detailed inspection of means at the packing plants, by government inspectors. This goes on during every single operation of processing. And official standards in Canada are high. Very high!

At this point, some firms prefer to make a further personal selection in keeping with their own individual specifications.

Right here, is where the tangible difference can occur. In our case, our buyers select only the finest Government Graded steer beef.

A butcher's touch

Ever watch a real butcher demonstrate his definess and expertness in carving, trimming, de-boning the basic cuts you buy?

The way he does it can make a big difference too in the value you get for your meat dollar:

Half inch trim. Remove all other excess fat, bone, sinew. Right thickness. Right weight for your size of family.

A challenge!

It's all in a day's work at Dominion. And if you don't think our friendly knowledgeable Butcher can make the difference, just try us sometime!

Your reward!

Yes, proper aging gives beef a juicy tenderness you'll recognize as soon as Dad begins to carve. And we won't mind a bit if you take all the credit, mother!

o please tell all the kids who read your column that they
th't play favorites. I realize now it can hurt adults as
the tan hurt kids. — SORRY NOW.

, DEAR SORRY: I'm glad you were big enough to admit you made a mislake. I'm printing your letter because I believe it has a good measure for others.

DEAR ANN LANDERS: I have heard of men loaing control their passions and committing sex crimes. I have never ared of this happening to a woman. Why? Can you tell me? — «QUISITIVE.

DEAR IN: The male was designed to be the accusal aggressor both psychologically and physiologically. Because of the asstancial structure the male can "clast" his preview, and the structure of the can can "clast" his preview, as which the woman was the aggressor. These criteria were perpetuated by devistate, against members of the mass ast. Most of the bitaarw acts occurred in prison.

Confidential to THIRTY YEARS OF EXPERIENCE: Sorry, life's story doesn't line up with your signature. It sounds you've had one year's experience thirty times: Get some more and stop repeating the same mistakes.

Kingston waterfront

Kingston walerfron!

In 1978 Kingston wiff citievanie its 2001s milwerary and there are hopes that development plans for the city's waterfront will askerialise in time for the occasion.

An Ottawn firm' proposal to construct a sig readential-commercial recreation complex in property formetry occupied by the rithrathal Morse plant along the Jonaton of the control o

plant of whichild idea to "resilling."

Here are some other mandom reactions: "I am impressed that what he (the developer) represent that what he (the developer) represent which seen. I he has some wonderful idea if they can be put into practice, and the seen of the seen of the basedwale idea is very good — it brings would blend in nicely with existing hidsen's structures. The whole area needs a face-litting to brighten it right up. . I was manuscape pleased when he said he would like to see a serior citizen development in this care.

The comment of another alderman was a blend of cauthous optimism with the pragmatic outlook: "Dr find the prospect of increased commercial use attractive since that means tax revenue. However, we will have to be concerned with such things as traffic problems, parking and sever facilities."

yes amy and sewer facilities." Yet another had reservations and outlined against a rush job just for the sake of the 300th anniversary. He wanted council to have a good look at the plan.

For the site that the

have a good look at the plan.

For the city that was the original capital of Upper Canada and has many links with our own and other Lake Contain communities, the prospect of waterfront development could provide the stimulus for the entire lakeside region. Certainly Belleville, with ideas of its own in this regard, will be watching the progress of the Kingston plan with interest.

INTRODUCING

A NEW COMPANY AND SERVICE FOR OUR CLIENTS AND THE PUBLIC

agf TAKA Ditd.

Computerized Tax Consultation

As part of a continuing program to broaden the range of financial services available to our clients and the public, we are pleased to offer you a complete tax consultation and computerized preparation service.

In this age of rapid change and the increasing complexities as-sociated with business and personal affairs, you, like most people, prob-shly encounter considerable difficulty in relating your own particular financial situation to the Income Tax Act.

Because of this, may we suggest a "tax check-up" by someone who is fully aware of current assessing practices.

Regular medical check-ups are highly recommended. A tax check-up with one of our consultants can be just as beneficial financially. Besides sliminating the ordeal of preparation, the discovery of extra deductions requently saves the reasonable fee involved.

Eye-catching Coats for Spring!

Here are some of the new Aquasculum of London designs. On the left, "Petworth", casual, chic and eye-catching in its simplicity. A narrow cost in pure wool [ersey, double-breasted with pocket detail, large patch pockets, and fringed leather beit. The cost also comes in a variety of tweeds, "Lucerne", entre, has that stamp of distinctive elegance. An easy fitting garment

with soft shoulders and pocket flaps, it is shown here in an all-wool coating. On the right, "Capri", a swirling tent shape in giant checks with subtle colorings. This coat, angle-breasted with soft region shoulders and stant pockets, is available in Scottlish tweeds and all-wool coatings.

Evidence Supporting Pre-school Education Advanced By Researchers

SASKATOON (CP) — Evidence that supports pre-echool or kindergarten education has been advanced by researchers at University of Saskatchewan. A study of an early entrance program in Saskatoon public achools suggests that-echo.thd children can benefit from early entrance.

entrance.

Children normally enter school if their sixth birthday occurs in the year of admission. Under an early-entrance program started in 1966, five-year-

olds with January or February birth dates were admitted on the basis of mental ability, reading aptitude, social and emotional maturity and physi-cal health.

Researchers compared three

cal bealth.

Researchers compared three categories of Grade 2 pupils for the study: early entrants of 1967, regular entrants of 1967, regular entrants of 1967 and children rejected for early entrance in 1956 who centred normally in 1957.

The study showed no differ-

ences between groups in aca-demic performance and social adjustment, said John McLeod, adjustment, and den stellend, head of the university's special education department. This indicates the basis for selection and rejection of early entraint is sound, he said, "at typing to pick out grouters, it was almply trying to get those students who were ready for school into schools."

However, the findings, as —""

selection and rejection, showed other results. When the schools were grouped on a basis of socio-economic areas, some significant differences were noted in the performances of children who were rejected for early entrance.

The reasons were essentially different, but both groups would beselft from earlier entrance. Mr. McLeod said.

"We've long recognized the advantage of HeadStart programs for underprivileged children, but it also applies to children from upper economic

A Floral Headdress!

Something different in the line of headdresses is this one consisting of a combination of disisses and ropes with matching bouques. The idea is an original one belonging to Mm. W. T. Hallam (one Linds Machonald.) She made the headdress herself as well as designing the flower arrangement.

STARTING OUT with the right point of view is the only comfortable way to begin a marriage: learn short-cuts in grooming now and keep the honeymoon going forever !

Warrior Was Best Man

beings have always lived in what may be broadly described as a siste of marriage — a relation of one or more men to one or more women which is recognized by custom of law and involves certain rights and

duties. The word "wedding" opti-netes from the bacharic stage of wife purchase. "Wed" equals purchase money or its oquival-end which the bridgerous gives to the transaction. In the early stages of the Angle - Sazons children were often betrothed by the parepta, the bride's pirder of merciacy below a secument of the processing of merciacy below a secument of the "wed" furnishing the secuments of the "wed" furnishing the processing of the p ed by the bridegroom's father. ed by the bridgeroom's father. The tradition itself has gone through three basic stages. The first one is marriage by force or capture: second is through contract or purchase and the third is the one practised to-day in most countries — man-risge through mutual love.

Some of the customs practis-ed today have been derived from former practises which have gone through gradual stages of evolution to suit the
